

Caparo Atlas Fastenings (CAF), part of Caparo Vehicle Products, is the UK's leading manufacturer of specialist fasteners. Building on a rich heritage and strong brand, the Company is poised for further sales growth in Europe and Asia. Focusing on automotive engineering and specialist markets, licences are held for a variety of proprietary products such as Taptite Powerlok & Torx along with the CAF's own high performance brand.

The UK's leading manufacturer of specialist fastenings

Experienced CAF research teams work closely with suppliers on all aspects of fastener design, from selection of raw materials through to product performance testing

Drawing on a wide portfolio of products, Caparo Atlas Fastenings combines manufacturing excellence and product integrity and reliability with best practice methods and performance. With over 100 years of experience, CAF is unrivalled in the design and manufacture of more complex fasteners, requiring absolute quality for critical applications.

The Company's infrastructure makes CAF the ideal partner for the automotive industry, encompassing customer based application engineers, extensive in-house engineering support and unmatched capital investment. CAF are ideally placed to meet the evolving needs of the automotive sector, rapidly and cost effectively.

Fully equipped metallurgical environmental and dynamic laboratories enable tensile, torque and fatigue testing to be carried out under simulated working conditions

In-house Auto CAD, FEA and strong partnerships with specialists in surface finishing, materials and logistics enable CAF to have unequalled product to market turnaround
